METER

There are two ways you can get 30 days of blood glucose readings to your clinic.
e-Care your provider OR a Medical Assistant sent you a request via your e-mail we have on file.
Please respond to this e-mail and type in your readings.

DEXCOM

*Please note that we cannot upload or see reports from the Dexcom touchscreen receiver

If you have the Dexcom app on your Phone please use CLARITY to share data with your provider (you can also go to https://www.dexcom.com/faq/how-do-i-share-my-g6-glucose-data-followers for instructions from the Dexcom website):

1. Download Dexcom Clarity App to your phone
2. At the bottom Tap **SHARE**
3. Tap **ACCEPT INVITATION**
4. Enter the following Sharing Code for our clinic:
5. Select your Date of Birth. (Start with the year first)
6. Tap **CONTINUE**
7. Tap the **I CONSENT TO SHARE MY DATA WITH MY CLINIC** box.
8. Tap **YES, SHARE MY DATA**

If you use a Dexcom receiver:

1. If you use a receiver, log into Dexcom CLARITY from your computer
2. Connect your receiver to the computer with the USB cord provided by Dexcom
3. Follow Dexcom CLARITY's Uploader instructions
4. The data stored on your receiver will appear instantly
5. When you have downloaded the data you will SHARE your data on Dexcom Clarity App. See instructions on how: https://www.dexcom.com/faq/how-do-i-share-my-g6-glucose-data-followers

Dexcom receivers store about 30 days of CGM readings with 120 Calibrations. It is important to upload Dexcom receiver data to Dexcom CLARITY at least every 30 days to ensure data is not lost.

If you use a smart device, Dexcom CLARITY receives your data automatically from the Cloud and displays in Dexcom CLARITY about 3 hours later. By using a smart device, the most recent data you view in Dexcom CLARITY is at least 3 hours old.

You can also see Dexcom's instructions at https://www.dexcom.com/faq/how-do-i-share-my-g6-glucose-data-followers

MEDTRONIC

Instructions to install Medtronic Carelink Uploader see
https://www.medtrnicdiabetes.com/customer-support/carelink-software-support/installing-and-uploading

TANDEM/OMNIPOD/OMNIPOD DASH/ T-SLIM X2
(WITHOUT Control Q10 SOFTWARE)

You will upload to TIDEPOOL UPLOADER FIRST, please use older version of Chrome as your browser if at all possible, Internet Explorer is another browser option. <u>Give your clinic your UN and PW to your account</u>.

Please see instructions at https://www.tidepool.org/users
