

Diabetes Transition Panel

Moving from pediatric to adult diabetes care can feel like a lot of unknowns. Come hear real answers from people who have already made the jump.

Details

Who's Invited

Any teen aged 15-19 with diabetes - and their families.

What is It?

A panel discussion featuring young adults with type 1 diabetes who have made the move to adult care, alongside a clinician from the AHEAD Program and a parent of a young adult. Ask about college, travel, work, insurance, tech, relationships, emotions or anything else diabetes related. Light refreshments will be provided.

The AHEAD Program supports teens and young adults with diabetes through the transition from pediatric to adult care with a multidisciplinary team.
